

Wizard's Software CD/DVD Collection

Note: This is a collection of authentic and inauthentic CDs and DVDs I had over the years for various misc software. Some of these are pack-ins with devices or products while others are Cds/DVDs for installing operating systems.

- CAD 3D (Expert Software 1999)
- NI Multisim (National Instruments, Electronics Engineering Software 2007)
- NI ELVISMX (National Instruments, Electronics Engineering Software 2007)
- Virtual DJ (PUT YOUR HANDS UP IN THE AIR PUT YOUR HANDS UP IN THE AIR Every douchebag DJ in the 2000s had this software because I've seen it used at Pep-Rallies)
- Imagination Express: Destination Ocean (1995 Edu CD about Marine Life)
- Windows 7 ISO DVD-R (Burned ISO)
- Windows 8.1 ISO DVD-R (Burned ISO)
- Xbox 360 Accessories 1.2 (Came with an Xbox 360 wired controller I used to have that I bought for PC gaming)
- Marine Aquarium (2003 Screensaver Bloat)
- My Own Paint Set (The Learning Company 1996, Everyone who is a OG had this software)
- Mathematics Encyclopedia (1994 Edu Software)
- Dinosaurs and Prehistoric Life (McGraw-Hill, Edu Software)
- Multimedia Law Library (1995, Cosmi, Why do I have this?)
- Dinosaur Safari (1994, Creative Media Corp, Edu Software)
- Compton's Interactive Encyclopedia (Compton New Media, 1992-94, Self Explanatory)
- Desktop Bible King James Version (Compuworks, Wizardworks Company...wait what?)
- Norton AntiVirus 2000 (No explanation require haha)
- XFX AMD Driver Installation DVD Driver 18.10.1 WHQL V1.1
- Windows XP CD-R (Burned ISO)
- Kubuntu 64bit DVD-R (The First Linux Distro I seriously used, not sure what version, didn't write it)
- Lubuntu 64bit DVD-R (Not sure what version, didn't write it)
- Debian XFCE DVD-R (Again, didn't write the version but presumingly 6.0)
- Mint XFCE 64bit DVD-R (Not sure what version)
- Manjaro 18.04 XFCE DVD-R (Finally)
- Clover OS July 2019 DVD-R (/g/ tried to make a Gentoo based OS)
- Trisquel LXDE 64bit DVD-R (Version not mentioned)
- MX Linux 64bit DVD-R (Again, version not mentioned)
- McAfee Total Protection for Small Buisness (2003, probably something my Dad got for his workplace)
- Dell Product Recovery CD Microsoft Windows 98 Second Edition (Now we're talking. This is from my first home computer desktop that I no longer have anymore)
- Kid Pix Deluxe 4 (The Learning Company, This is from Chick-fil-A. Probably got it through a kids meal)
- Cannon Pixma MG2500 (2016, Printer Driver Software)
- Microsoft Office 2007 DVD-R (Pirated Burned Software, huh interesting)
- World War II (1994, ISMI, Edu software)
- 3D Virutal Reality Architect (1997, Cosmi, I HIGHLY doubt the Virtual Reality aspect but it is 3D)
- Belkin Wireless N Router N300 (Router drivers I presume, 2011)

- Dell Windows Vista Home Basic 32bit SP1 Operating System (If only we knew how bad things would really get)
- Animated Coral Reef (Expert, 1998, more screensaver slop, Aquazone was better IMO)
- XP-310 Small-in-One Printer/Imprimante Software/Logiciels...more like Logincels (Obviously printer drivers, 2013)
- Cisco Linksys E1200 (2012,How did I end up with all these useless drivers)
- Creative Sound Blaster X-Fi Surround 5.1 Pro (2013, External Audio DAC Drivers)
- And a crap load of blank CD-Rs and DVDs, quite handy to keep around.
- I also have 15 micro diskette (3.5 floppy diskettes) each about 1.44MB capacity. I don't use these for much other than storing photos and screenshots.
